

My family is not very big. We are just four people: my father, my mother, my sister, and me.

We also have a dog. I am older than my sister, but she is taller. Let's go together to

school. I am twelve and she is eleven. My parents are called

Javier and Maria. My sister is called Sara,

and I Luis. We live in a very nice house. My father is a banker, and my mother a housewife. By

tomorrow, we have breakfast together in the kitchen. I like having breakfast with my family. In addition, for the

mornings I always have ham

bre. After school, my mother prepares a delicious meal. By

late, my mother meets her friends, and my father plays tennis. My sister and I do our homework

and then we watch television. On Friday afternoons the four of us go shopping

s. My father is tall and

blond, and my mother is dark and slim. My sister likes to meet her friends in the park. I

I have a lot more fun playing video games at home.
